

Gower Heritage Centre Access Statement

We extend a warm welcome to all our visitors. If you have any special requirements, we will try to meet them as far as is possible. We offer a concessionary entry rate of £2.60 for anyone registered disabled and their helper on request – without the embarrassment of showing identification.

Mobility

The Heritage Centre consists of a collection of old buildings, so the surface underfoot is sometimes a little rough and uneven. 95% of the Centre can be easily accessed by someone in a wheelchair. There are several disabled parking spaces in the car park and it is also possible to drive right up to the front entrance to unload if necessary. We have a couple of wheelchairs available for use by our visitors.

Hearing impaired

We have recently installed an amplification system for our guided tours and hope that this will assist large groups.

Visually impaired

We try to ensure that the Centre is easy to negotiate, with steps clearly marked and pathways kept clear. We do not currently have any material available on Braille. If you have any comments or suggestions to make about improvements we could make, we would be happy to hear them.

Special needs

We often welcome groups of people with learning difficulties, either for specialised tours or simply as individual visitors. Again, please get in touch for details of our special concessionary rates.
