

**CREATING YOUR
OWN GIN**

CREATING YOUR OWN GIN

Have you ever wanted to design and produce your own gin? something that will promote your brand and company to everyone who tastes it.

The process is easier, cheaper and quicker than you might imagine

The first step is to design a gin that reflects your company goals, mission and ethos. We work with you to create a product that will be an ambassador for your company every time a bottle is sold or given as a gift.

We can create a gin to embody your business, a particular event, something that you can sell in your restaurant, bar, hotel or pub. This will be exclusively yours and your gin can be produced as much or as little as you like.

Why not get in touch for a free consultation. Call Andrew on 07854 319768

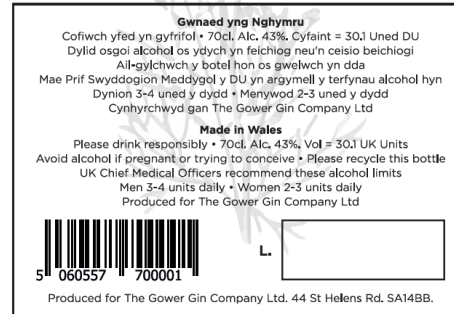

BRAND DESIGN AND DEVELOPMENT

We can guide you through the whole process and already have contacts and partners to source all components

Mae jin Gŵyr yn jin crefft wedi'i gynhyrchu yn Ne Cymru. Blas meryw sy'n flaenllaw, wedi'i gydbwysu â nodau sitrig, glan gan orffen gydag ergyd bersawrus o ffenig a gasglwyd o'r twyni tywod ar arfordir De Gŵyr.

Gower gin is a juniper-forward craft gin made in South Wales, balanced with clean citrus notes and finishing with an aromatic kick from fennel fronds foraged from the dunes on the South Gower coast.

Things to think of:

- Bottle and Cork
- Front label
- Back label (or continuous single label)
- Tamper strip (range of options)
- Protective closure (we use viscose closures)
- Duty paid sticker (we will provide these)
- Barcode (we will provide this)

IVY's was our first contract gin, a clear front label and matching printed tamper-strips on a decanter style bottle.

NEXT STEPS

If you would like to have a free, no commitment consultation on producing your own gin please contact
