# Special Menu

## The Thai Meal

The Thai skill in striking a delicate balance of flavours is renowned. Masterful blending of spicy, sour, sweet and salty tastes, often punctuated with hints of lime and lemongrass, creates a mouth-watering experience.

Best shared with friends or family, the typical Thai meal consists of rice ladled on to each plate with combinations of aromatic curries, stir-fries and other dishes served at the same time.

The Thai meal typically consists of one or two appetisers, a yum (salad), rice with soup, a curry dish and a main dish.

A meal is capped with fresh tropical fruits and a selection of delicious native desserts
